

Editorial

This EMBnet.journal supplement is dedicated to the 2011 EMBnet Annual General Meeting (AGM) and satellite workshop, which took place at the Instituto Gulbenkian de Ciência in Oeiras, Portugal, between the 23 and 25 May 2011. This, the 23 consecutive EMBnet AGM, was a significant one: it was celebrated during a time when EMBnet has begun to redefine itself in order to continue to contribute effectively to the life sciences' evolving data-driven landscape, for the benefit of the communities it continues to serve.

The 2011 workshop and AGM consequently formed an important landmark in EMBnet's history. The discussions centered around questions on how EMBnet could and should change in order to become a more efficient and agile organisation. Participants in the workshop worked extremely hard during the meeting: this EMBnet.journal supplement highlights some of the important discussions around the work of the EMBnet community towards shaping and re-shaping an effective EMBnet of tomorrow.

EMBnet.journal Editorial Board

Editorial Board:

Erik Bongcam-Rudloff, Department of Animal Breeding and Genetics, SLU, SE, erik.bongcam@slu.se

Teresa K. Attwood, Faculty of Life Sciences and School of Computer Sciences, University of Manchester, UK, teresa.k.attwood@manchester.ac.uk

Domenica D'Elia, Institute for Biomedical Technologies, CNR, Bari, IT, domenica.delia@ba.itb.cnr.it

Andreas Gisel, Institute for Biomedical Technologies, CNR, Bari, IT, andreas.gisel@ba.itb.cnr.it

Laurent Falquet, Swiss Institute of Bioinformatics, Génopode, Lausanne, CH, Laurent.Falquet@isb-sib.ch

Pedro Fernandes, Instituto Gulbenkian. PT, pfern@igc.gulbenkian.pt

Lubos Klucar, Institute of Molecular Biology, SAS Bratislava, SK, klucar@EMBnet.sk

Martin Norling, Swedish University of Agriculture, SLU, Uppsala, SE, martin.norling@slu.se
